## ajout du responsive

```
@keyframes fadeInDown {
  from {
    opacity: 0;
    transform: translateY(-20px);
  }
  to {
    opacity: 1;
    transform: translateY(0);
  }
}
```

on peut voir que grâce a la commande @keyframes on peut ajouter un petite animation sur le titre

```

An abstract geometric composition featuring a large, vibrant cyan triangle in the foreground. Behind it, several translucent, light purple and pink planes intersect, creating a sense of depth and three-dimensional space. The background is a solid, deep blue. On the far left edge, there is a vertical strip showing a blurred, fiery orange and red texture, possibly representing a flame or molten material.

# L'utilisation de Github

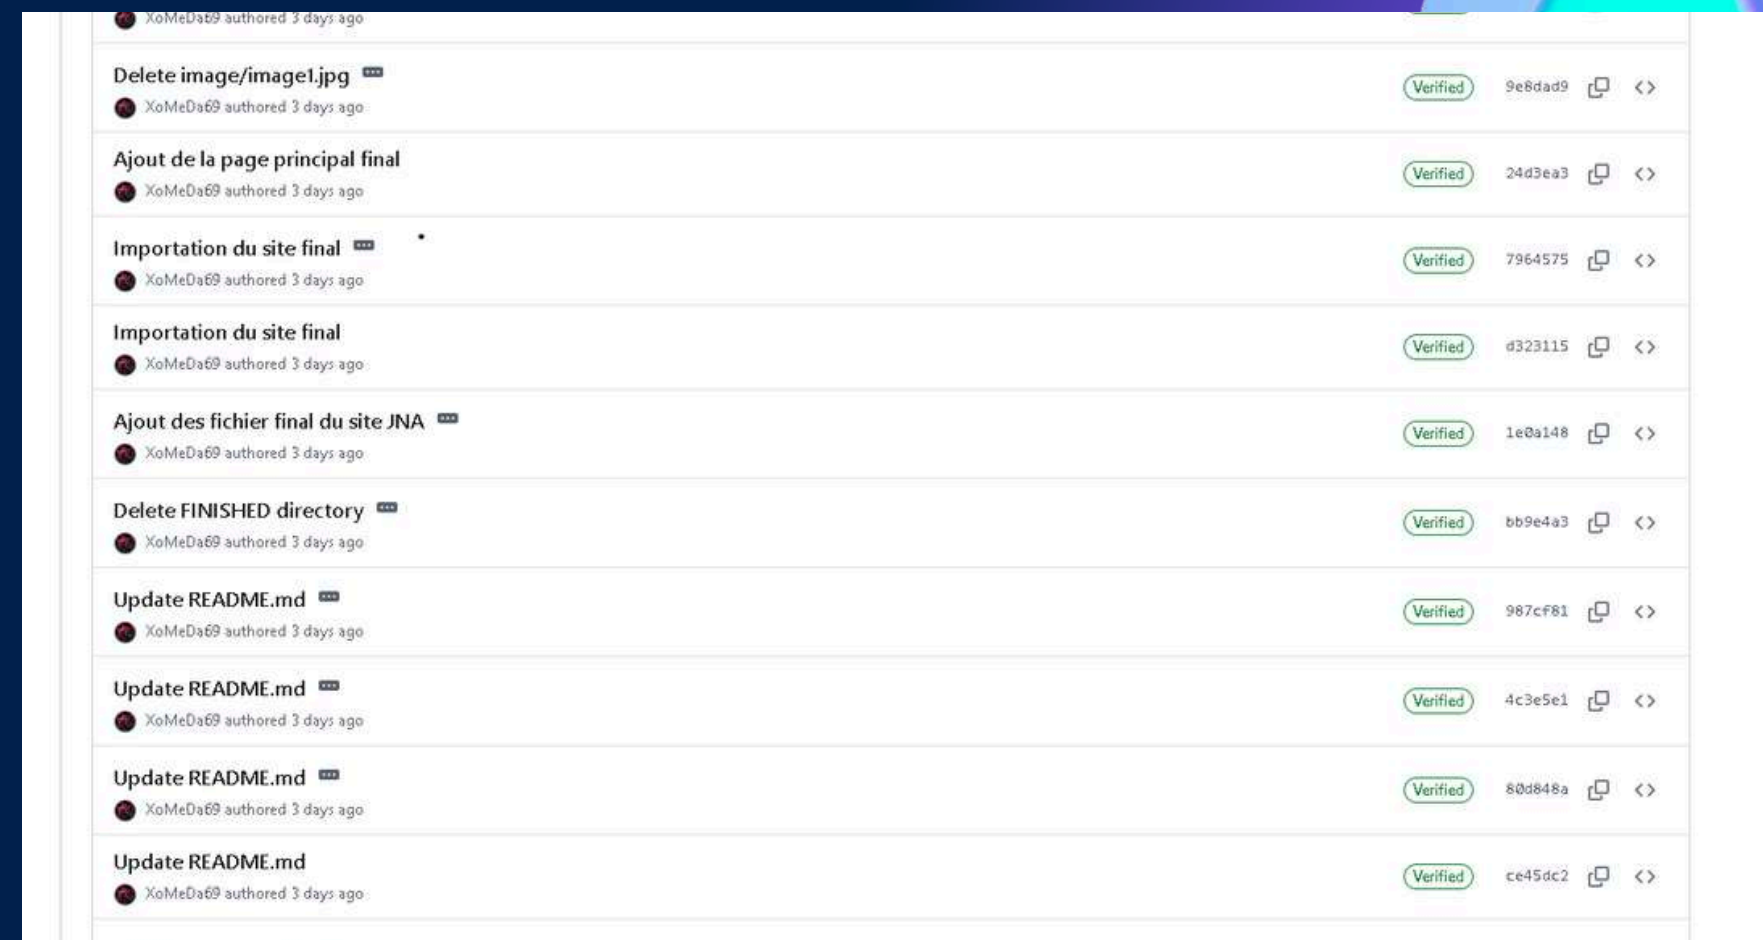

la branche de Jawad qui s'occupe de la page catalogue  
la branche de Noam lui s'occupe de la page d'accueil et l'API de la page de catalogue et apropos et supervise les autre branches.  
Et Ayoub lui s'occupe de la page contact et la page apropos

le readme de Noam est l'introduction a notre projet

Noam ici met régulièrement des commit pour l'avancer du projet pour suivre l'avancer de l'entièrter du groupe.
